

LET'S GET TOGETHER AND TALK

LANGUAGES AND LIFESTYLE!

Welcome to our world! Whether in lively, pulsating cities or colourful destinations on the coast, our organisation has been the leader for more than 20 years in providing language training for "young people of all ages": The thousands who have chosen to learn with us, have enjoyed much more than just high standard language courses!

Indeed, we at Sprachcaffe/Languages PLUS believe that a language experience should offer not only tuition but also an immersion into the rhythm and lifestyle of the host country. In this way it is possible to learn the language effectively and at the same time to discover customs and way of life.

To this end we provide extra-curricular activities which are interesting, exciting, and fun! From noon until night there is always something going on which complements the morning lessons and helps to transform a simple language course into an unforgettable experience.

There is no doubt that with Sprachcaffe/Languages PLUS you are choosing one of the best study-abroad programmes the language travel industry has to offer!

LEARNING WITH SPRACHCAFFE/LANGUAGES PLUS ...

To start speaking a language right away, you need a teaching method that bases its whole concept on communication. What keeps the conversation going is the desire to express oneself spontaneously. The atmosphere we provide is an important element in securing motivation, the most important requirement for effective learning. Total language immersion is the key.

At Sprachcaffe/Languages PLUS schools throughout the world our teachers are fully qualified, many hold a university degree, and are highly motivated with extensive experience in communicative language instruction. They are able to offer the perfect blend of effectiveness and enthusiasm. Their personality, sense of humour, energy and sensitivity all play a decisive role in the success of our courses. The course material our teachers compile is interesting to all the students. It secures motivation to the maximum level!

Our teachers establish a real-life communicative approach and use guided dialogues, interviews, and role-plays that help the students integrate newly learnt vocabulary and grammar structures into their active use and comprehension of the language. In this way we can ensure accuracy and confidence while learning to communicate in a foreign language.

Our teachers nurture a positive and creative atmosphere, and our students progress in leaps and bounds- often without even realising it.

... IS LEARNING WITH ALL YOUR SENSES!

We emphasise the need to learn with all your senses. It is our unique and positive atmosphere that stimulates all your senses and motivates you to really learn and understand the new language. All factors that contribute to this environment are important for your language training.

This could be in a classroom as well as in a garden or on a terrace. Moreover, the accommodation, culture, and extra-curricular activities play an essential role in guaranteeing your success.

YOUR SUCCESS IS OUR COMMITMENT

No matter where and how long you want to study with us, we have a commitment to you at all our destinations. Sprachcaffe/Languages PLUS guarantees the appropriate language level for you, as well as small class sizes, on average 10 to 12 students per class. You will get to know our teachers and profit from their effective teaching methods.

All our schools are located in beautiful areas and are ideally equipped. The immediate surroundings offer many opportunities to engage in social, sports and cultural activities.
